

PRESS RELEASE

Decades of loyalty honoured at SPANGLER Christmas party

Töging/Mallerstetten During the company's Christmas party, which was celebrated as a successful ending of 2018, SPANGLER GMBH appreciated ten long-term employees for their 10 to 30 years anniversary of employment.

"It is our personal wish to have our employees on board for a long period as they are the most important foundation of our success", said Hannelore Spangler, Managing Director of SPANGLER GMBH. This is the reason why the company is pleased about the number of employees celebrating an anniversary at this year's Christmas party. Rosmarie Ibel is the good soul of the house and has been taking care for the cleanliness in the offices and the company for 30 years. Admir Viđen was honoured for 20 years of company loyalty. He is responsible for the mechanical assembly of switch and control systems. Markus Simon has been with the company for 20 years and holds today the responsible position of the deputy manufacturing manager. The Management showed its gratitude for the long-term employees and took some time to address every one personally. Ten employees were honoured; altogether they have been with SPANGLER for 150 years.

Reviewing the year in a Christmassy atmosphere

The year 2018 was full of activities with many projects and events. This success was only possible thanks to the great commitment and the willingness to work of all. Hannelore Spangler was evidently pleased to announce that for this reason it is possible to pay a bonus to the employees.

The key focus is on involving the employees throughout the year. Thus, the award of the innovators is targeted at the involvement of the employees in processes of the enterprise. 89 proposals were handed in for the operational suggestions for improvement. Taking most of the assessment points into consideration the following staff members made it into the top three: 1st rank Peter Gallenkämper, 2nd rank Andre Spitzner and 3rd rank Daniela Böhm. Their commitment was rewarded with gift cards.

As in the previous years, the company's Christmas party took place with a special focus on a pleasant Christmas atmosphere. In the restaurant Freihart in Mallerstetten a special Christmas lounge was established which was used for a cosy get-together with mulled wine and biscuits.

Heartfelt wish - Christmas donations

With the two Christmas donations from SPANGLER this year the wooden lodge of the Waldkindergarten Dietfurt was co-financed and the association "Nähen für Frühchen und Sternenkinder Beilngries e.V." (A group of mothers who sew and knit for premature babies and angel babies) was supported.

C. Deyerler and C. Hofmann handing over the donation to the Waldkindergarten Dietfurt

The association "Nähen für Frühchen und Sternenkinder Beilngries e.V." presented its work to SPANGLER employees.

Innovators, from left to right: A. Spitzner, D. Böhm, P. Gallenkämper

SPANGLER Automation employs around 140 people at its headquarters in Töging in the Altmühl valley and has been a reliable partner of the national and international mechanical and plant engineering for more than 35 years.

More than half of the plants produced are exported worldwide. The medium-sized family-run company plans and engineers plant automation, programs the control technology and manufactures switch and control systems for various sectors such as environmental technology, agricultural economy, building industry, food industry, automobile industry, raw materials industry as well as renewable energies.

Moreover, SPANGLER carries out the start-up and the after-sales service of the plants.
