

## PRESS RELEASE

### Honours for apprentices

#### Two apprentices were honoured for good performances at vocational school

Dietfurt/Töging, 29.07.2020 – Two apprentices have finished their apprenticeship at Spangler with a honoration ceremony for especially good performances at vocational school.

Sara Nrecaj and Marie Huml both have finished vocational school with excellent performances why they were honoured at the official farewell of the vocational school in Neumarkt in the ASV sports hall in the presence of Willibald Gailler, administrative head of the district Neumarkt.

#### Honours were performed later

Sara and Marie started their apprenticeship as a clerk for office management in 2017. As part of their apprenticeship they have worked in several departments and even did a four-week internship in Ireland. The ceremonial handing over of the certificates were performed later in a smaller scale due to the ongoing restriction at the company caused by the Corona virus. "We are very proud of Marie and Sara and their outstanding performances. We are also very pleased that we can further employ them both in responsible positions," human resources manager Cornelia Hofmann explains.

#### Reliable apprenticeship also in the future

In the last few years, Spangler has put a great deal into the apprenticeship. Not least through results such as these, Spangler is on a positive and stable way for the future. Spangler continues to focus on the apprenticeship of own specialists. Every year approximately five apprentices start their apprenticeship in different professions. The application period for the start of the apprenticeship in 2021 still lasts until October.
